

Corporate Finance, Expense & Reimbursement Policy

Authorization Limits, Accounts Payable, and Audit Procedures

1. Financial Governance and Ethical Responsibility

ACME Corporation enforces rigorous financial controls to ensure fiscal transparency, tax compliance, and accurate bookkeeping across all departments.

All corporate expenditures must be directly linked to legitimate business activities, properly documented, and authorized by appropriate department heads.

2. Delegation of Spending Authorization Limits

Expenditures must follow the formalized approval matrix based on total transaction value:

Level 1 — Direct Team Lead / Manager: Authorized up to \$1,000 per purchase or invoice.

Level 2 — Department Director: Authorized from \$1,001 up to \$10,000.

Level 3 — Vice President (VP): Authorized from \$10,001 up to \$50,000.

Level 4 — Chief Financial Officer (CFO) or CEO: Mandatory approval for all expenditures exceeding \$50,000.

Splitting single invoices into smaller transactions to bypass approval limits is considered fraud and grounds for immediate disciplinary action.

3. Corporate Credit Card Governance

Corporate credit cards (Brex) are issued to department managers, executive leadership, and designated frequent travelers.

Cardholders must upload itemized receipts for every transaction within 7 business days of posting.

Personal purchases on corporate cards are prohibited. Inadvertent personal charges must be self-reported to finance@acme-corp.com and repaid within 5 business days.

4. Expense Report Submission and Receipt Rules

Expense reports must be submitted via the expense portal within 30 calendar days from the date the expense was incurred.

Expenses submitted after 60 calendar days will be permanently rejected unless approved in writing by the CFO.

Itemized Receipts: A detailed receipt showing itemized charges, merchant tax ID, date, and payment method is required for all purchases exceeding \$25.00.

Missing Receipt Affidavit: A maximum of two missing receipt affidavits per fiscal year are allowed for expenses under \$75.

5. Reimbursement Processing Schedule

Submitted expense reports are reviewed by Accounts Payable every Tuesday.

Approved reimbursements are disbursed via Direct Deposit on alternating Fridays in coordination with the bi-weekly payroll cycle.

Standard turnaround time from report approval to payment disbursement is 5 to 7 business days.

6. Vendor Invoices and Accounts Payable (AP)

Standard Vendor Payment Terms: Net-30 days from the verified date of invoice receipt.

Purchase Orders (PO): A formal PO approved by Procurement is required for all vendor service contracts or hardware purchases exceeding \$5,000.

Invoices without a matching valid PO number will be put on administrative hold until procurement approval is provided.

Corporate Finance, Expense & Reimbursement Policy (Continued)

7. Software Subscriptions and SaaS Purchasing

All software licenses, developer tools, and cloud subscriptions must be reviewed by IT Security and Legal prior to commitment.

Auto-renewing contracts must include a 45-day cancellation notice provision.

Employees are not permitted to use personal credit cards for multi-user team SaaS licenses without Director sign-off.

8. Client Entertainment, Gifts, and Hospitality

Client dining expenses are capped at \$150 per person inclusive of food, beverage, and tip.

Corporate gifts to clients or external partners must not exceed \$100 in fair market value per recipient per calendar year.

Giving or accepting cash gifts, gift cards, or financial equivalents is strictly prohibited under the Foreign Corrupt Practices Act (FCPA).

9. Financial Audits and Disciplinary Escalation

The Internal Audit department conducts random quarterly audits of 15% of all corporate expense reports.

Deliberate falsification of expense reports, double-claiming, or unauthorized purchases will result in employment termination and civil recovery proceedings.

Inquiries and dispute escalations should be directed to finance-compliance@acme-corp.com.
